PROFESSIONAL PROFILE

Software Architect and Full Stack Developer with 6+ years of experience designing and scaling high-impact digital products. Specialist in Backend ecosystems (Node.js) and complex architectures (Microservices, Hexagonal). Known for bridging technical execution and strategic decision-making, aligning technology with business objectives to deliver robust, cost-effective, high-availability solutions.

WORK EXPERIENCE

Software Engineer — Avila Tek May 2024 – Present
Caracas, Venezuela

Technical lead for the stabilization, re-engineering, and scaling of mission-critical applications at an international level.

- **Project Armi** — Multi-tenant SaaS E-commerce (+9,000 orders/month)
  - Backend core architect; implemented a caching layer that reduced latency by 70% and designed an async processing engine with RabbitMQ for high-volume workloads without blocking.
  - Fully automated the sales channel using bots via the WhatsApp Business API.
  - Secured payment gateways and national banking integrations using RSA cryptography.
- **Project Estei.app** — Tourism Accommodation Platform
  - Led the migration to Hexagonal Architecture, decoupling dependencies and drastically reducing technical debt.
  - Built secure APIs with Rate Limiting and load balancing, integrating critical external services.
  - Led Full Stack development with Next.js, React, and MongoDB, backed by test coverage (Jest/Vitest).

Backend Developer — Vilotechnologies Feb. 2022 – May 2024
Caracas, Venezuela

- NodeJS specialist developer, involved in 5 projects and leading development in one of them.
- Developed a national sports administration system for Venezuela in three months, significantly improving the management of events and athlete data.

Backend Developer — Tecno Red Soluciones Sep. 2021 – Feb. 2022
Caracas, Venezuela

- Software development using PHP, Laravel, and MySQL.
- Creation of new modules in existing systems and maintenance of legacy applications.

EDUCATION

Associate's Degree in Computing (TSU) Nov. 2020 – Mar. 2022
Instituto Universitario "Jesús Obrero" | Caracas, Venezuela

Continuous Learning in Software Development Mar. 2020 – Present
Platzi, Udemy and other platforms | Online

TECHNICAL SKILLS

NodeJS · TypeScript · JavaScript · NestJS · PHP · Laravel · MySQL · PostgreSQL · MongoDB · ReactJS
HTML · CSS · WordPress · GIT · Redis · RabbitMQ · TailWindCSS · React Native

LANGUAGES

Spanish: Native **English:** Intermediate

INTERESTS

Reading: Passionate about books on technology, entrepreneurship, and startups, always seeking new ideas and industry trends.

Product Development: I enjoy building personal tech products in my spare time as a way to exercise my sense of innovation and improve everyday processes through technology.
